

# INNOVATION IS IN OUR DNA

---

QUEST DIAGNOSTICS'  
NEW 250,000 SF  
FLAGSHIP LAB WILL  
BE ONE OF THE MOST  
ADVANCED IN THE  
COUNTRY

---

- The new 12-acre Quest Diagnostics complex, will house more than 1,100 employees, and is slated to open in early 2021.
- Hackensack-Meridian Seton Hall School of Health and Medical Sciences and graduate School of Nursing onsite with more than 2,000 students, faculty and knowledge workers.
- ON3 is the only NJ biomedical ecosystem campus located 9.5 miles from NYC with mass transit access.
- ON3 Campus offers a unique infrastructure to support R&D and laboratory use: 10-megawatt central utility plant providing electric (true redundancy to the desktop), chilled water, and steam expandable by another 10-megawatts.
- Strategically located along the Northeast Life Sciences Corridor with access to local and global financial markets for venture capital.
- Access to the most highly skilled and educated workforce in the country.
